SCRUM MEETING WEEK 7 - RISCORD

✅ Sprint planning checklist

Preparation	Meeting	Follow up
We finished working on making modifications to the Milestone 2 document, discussing and working with our TA to determine acceptance criteria for our user stories and building them into our milestone document as well as into our repository's ReadME, and onto the individual GitHub issues themselves for the user stories.We also verified our CI/CD setup is correct, and checked for any updates to our UML, and DFD diagrams.	We discussed a basic UI, and basic DB with firebase DB. We also updated our tech stack to meet a specific tutorial that we found on youtube that we will be using to build our discord clone.	We implemented a basic UI, and basic DB with firebase DB. But, after our efforts of implementing a basic UI and DB integration, we discovered a better approach to follow for our system based on the youtube tutorial, which we will now be following from the coming week to work on the project. We also updated our tech stack to meet a specific tutorial that we found on youtube that we will be using to build our discord clone.
